

# Environmental shocks and higher education: How did an earthquake and air pollution influence college access and graduate mobility?, 30 November 2021

00:38:28 Lili Yang: Colleagues, you're invited to post your questions for our four presenters here.

00:48:37 David Law: Environmental problems may be local or sub-regional but remedial action often has to be national and the solution to problems has to be found through international action (COP26). Can the speakers comment more on the tendency to stay local for university education? And also, please, on the national consciousness of sustainability issues in China as a whole?

00:55:22 Lili Yang: Colleagues, any other questions for our presenters?

01:03:01 CRISTINA DE CARVALHO: Congratulations all for this wonderful webinar. I would like to ask you between air pollution and earthquakes, in your researches, which of both produce the worst effect in domestic mobility of college students and jobs opportunities in short and long term?

01:07:19 CGHE Webinars: Thank you for joining us today. A recording of this webinar will be on the CGHE website tomorrow morning: <https://www.researchcghe.org/events/cghe-seminar/environmental-shocks-and-higher-education-how-did-an-earthquake-and-air-pollution-influence-college-access-and-graduate-mobility/>

01:07:36 Trif Victorița: Thank you!

01:08:21 CGHE Webinars: Our next webinar, 'Anti-racism in UK universities: what are we learning?' is on Thursday. You can register here: <https://www.researchcghe.org/events/cghe-seminar/anti-racism-in-uk-universities-what-are-we-learning/>

01:15:53 CRISTINA DE CARVALHO: Thanks all!

01:15:56 Wei Lu: Thank you!

01:16:09 C Sanger: Thanks you all
