AI and academic labour

19 September 2023

00:17:52   Janja Komljenovic: Welcome, colleagues. Please feel free to post your questions, comments and thoughts here in the chat area throughout the webinar. I will be compiling the list of speakers for questions. After the talks, I will invite you to speak and ask your question.

00:44:37   Lee Harvey: It seems legislation isn't working so what is the solution for controlling AI software to stop it being used to contravene human rights and rights to privacy?

00:48:12   Janja Komljenovic: Thanks, Lee. Everyone else, please post your questions and thoughts.

01:01:07   Wayne Holmes: Next week, the Ministers of Education from the 46 Council of Europe member states will be meeting and discussing (among other things) a resolution that calls for the CoE secretariat to develop a legally-binding instrument to regulate the use of AI in educational settings and protecting human rights of students and teachers (in the widest sense). If agreed, the instrument will be developed (based on lots of evidence gathering) over the following two years and will be presented back to the full Council. It is our intention/hope that this will include protection (in the widest sense) for academic workforce.

01:07:31   CGHE Webinars: Thank you for joining us today. A recording of this session will be posted on the CGHE site: https://www.researchcghe.org/events/cghe-seminar/ai-and-academic-labour

Our next webinar, ChatGPT and generative AI in higher education, will take place on Thursday from 2pm (UK). You can register here: https://www.researchcghe.org/events/cghe-seminar/chatgpt-and-generative-ai-in-higher-education/

01:10:50   Penny Welch: HE unions need to develop expertise on how existing and new software actually works so they can challenge what management claim

01:11:24   Mala Ramayah: Thanks

01:11:41   Sukjeet Sandhu: Thank you

01:11:42   Lye Yee Chew: Thanks speakers
